The Society for the Science of Motivation is an international, interdisciplinary society for researchers interested in motivation (broadly defined). Its mission is to encourage inquiry into all aspects of motivation from a variety of disciplines and perspectives, and to facilitate the dissemination of findings to a broad scientific audience. The annual meeting provides a forum for the exchange of scientific information, fosters discussion of new ideas and findings on motivation, and encourages collaboration in research.

**Registration** will open in January 2020. Further information (with more to come soon) can be found on the conference homepage at <http://www.thessm.org/conferences.html>.
